

Lighter Page Type Tutorial

In order to add a Lighter page type you need to access your Application's Dashboard and go to "Edit pages" section. Click on Add New Page button, the "+" button below the list of the currently available pages.

1- Select the Lighter Page Type

2- Press Create

After these steps a new Lighter page will appear in your application dashboard. In this page type you can modify the image of the on/off lighter screen.

Edit Lighter Page

NewPage1.html

This is a Lighter page. To convert this page to a different type click [Convert](#).

3 Save Done

Lighter: Page Properties

Light on: lighteron.jpeg

Light off: lighter.jpeg

Note:
Torch will be available only on devices with built-in LED flash and running iOS 4 and higher. Brightness adjuster is available on devices running iOS 5 and higher.

The page displayed in iPhone/iPod simulator on the left is for illustration purposes ONLY. It is just a combination of images and there are NO clickable areas. Please preview this page using [SeattleClouds app](#).

4

3 - Select an image from the resource manager/ upload a new one

4 - Select an image from the resource manager/ upload a new one

Now you need to create a link to this page type within your application. This can be accomplished by adding a Lighter Button linked to the Lighter Page Type.

Edit Menu Page

tab1.html

This is a Web/Menu page. To convert this page to a different type click [Convert](#).

To change PAGE STYLE click [Style](#).

Save Done

Title: WINTER

Header Image: null.png

Footer Image: null.png

To add a new item click "+" button below the list. To delete an item, select it and click "-" button.

Menu Items:

- Santa Claus
- Christmas Videos
- Contact Santa
- Follow Christmas
- Flashlight

5

Item Properties

Image: null.png

Title: Flashlight

Link to Page: Flashlight.html

6

5 – Add a new Menu Item in either of the Menu Type pages (in the example was used the Webkit Menu Page Type)

6 - Link the new created Menu item to the proper Lighter page that you have added in your application

Note:

Torch will be available only on devices with built-in LED flash and running iOS 4 and higher. Brightness adjuster is available on devices running iOS 5 and higher.

Here is the Result :
