

## Memo Game tutorial

To add a Memo Game into your app please follow this tutorial.

1) To add a Memo Game into your app go to the App Dashboard -> Edit Pages -> (+) To add a New Page

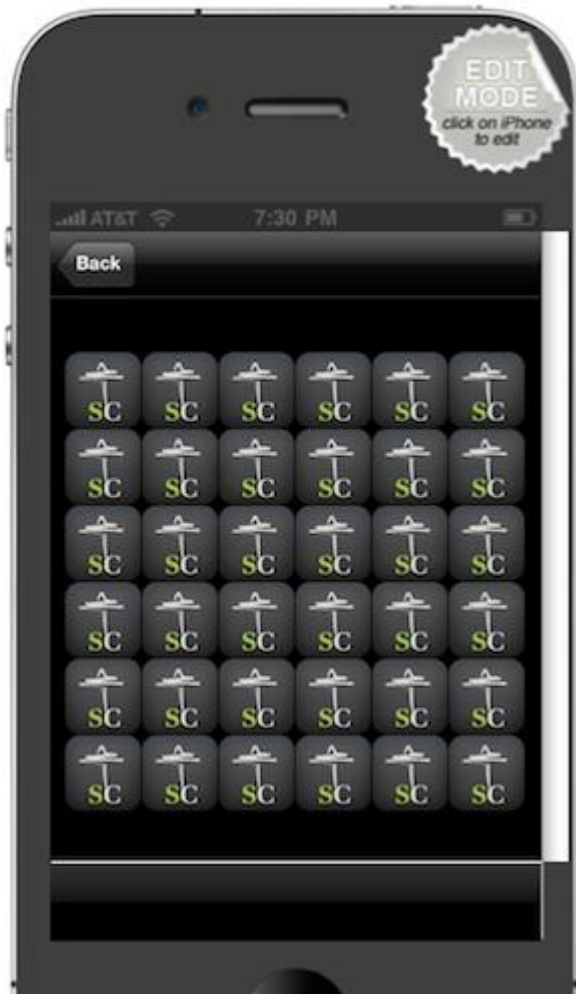

Choose Memo Game page type, give a name for this page and press Create button.

2) Next step will be to choose an image file from the resource manager for Hidden Images in game.

**\*\*NOTE:** Memo Games uses 100p x 100p images, otherwise our system will auto resize your picture to fit in 100 x 100 cell.

Also you need to create new resource files by pressing on Add (+) button or delete the resources you do not need by pressing Delete (-) button.

### Edit Memo game Page

tab4.html

This is Memo game page. To convert this page to a different type click [Convert](#).

Add image from RM for Hidden Images.

Save Done

Memo game Resources

Hidden:

+ - Delete a resource

Add a resource for Game

**NOTE:** The page displayed in iPhone simulator on the left is for illustration purposes ONLY. It is just a combination of images and there are NO clickable areas. Please test this page through [SeattleClouds app](#).

3) Add an image from Resource Manager for every Resource.

#### Edit Memo game Page

tab4.html

This is Memo game page. To convert this page to a different type click [Convert](#).

Save

Done

Select a resource

**NOTE:** The page displayed in iPhone simulator on the left is for illustration purposes ONLY. It is just a combination of images and there are NO clickable areas. Please test this page through [SeattleClouds app](#).

Add an Image for your game from RM

**\*\*NOTE:** You need 18 resources for an iPhone/iPod Memo Game (6x6) or 28 resources for iPad (7x8).

#### 4) Press SAVE

Now you can try your game using Application application.

My game look like this:
