

## Drag & Drop Tutorial

**1.** In order to add a new Drag & Drop page to your app access its **Dashboard**. Go to **Edit Pages** menu then click the "+" (Add New Page) button.

From the list of the page types available **select** the Drag & Drop one and click the **"Create"** button. Once the page is added, you are able to proceed with editing it.

**2.** On the left side of the editor you may find the Tool Box giving you the option to add new page elements. **Drag & Drop new Page Elements.**

**2.1** For adding a new image in your page please **Drag & Drop** from Page Elements Tool Box the **Image Icon**.

**2.2** For adding a new button in your page please **Drag & Drop** from Page Elements Tool Box the **Button Icon**.

**2.3** For adding a new text field in your page please **Drag & Drop** from Page Elements Tool Box the **Text Icon**.

**3.** On the right side of the editor you may find a list of your page elements. Images, Buttons or Text all these elements can be **deleted** or **edited** from here.

4. Bellow Page Elements list you may find **Additional Properties for selected elements**. Element Borders, Margins, Padding or Text - can be adjusted from here.

**When you're done, don't forget to press SAVE.**
