

## Podcast Page Type Tutorial

The Podcast page type is very easy to set up. In your app's Dashboard go to Edit Pages and add a new page. The menu of all our page types will appear:

Choose the Podcast page type and click "Create".

The Podcast page type editor has many standard options like Facebook sharing and style properties editing, header image and title:

The Podcast specific editing option is Podcast URL. The Podcast URL field takes a link to the RSS feed of the podcast. In the app podcast will look like a feed each item of which is clickable. Clicking on each item takes a user to a page with more information about selected podcast and a "Play" button.
